

Radon Mitigation Professionals

Below are some questions that may help in selecting a radon mitigation contractor.

1. Is the contractor's certification current and in good standing?

There are two national radon certification programs, listed below. Please refer to their websites for the most up to date information and for certified professionals in nearby states that service South Carolina. *Please note:* the individual is certified, not the company. Some professionals have earned advanced certificates through additional coursework. If an individual has an advanced certificate, it is noted on the list on the other side of this page.

- National Radon Proficiency Program (NRPP): www.aarst-nrpp.com/wp/ or 1-800-269-4174
 - Advanced Certification offered in Multifamily Mitigation (MFMT)
 - Advanced Certification offered in Radon Resistant New Construction (RRNC)
- National Radon Safety Board (NRSB): www.nrsb.org or 1-866-329-3474

2. Is s/he willing to perform an on-site evaluation of the home before giving you a bid?

An on-site assessment of the home should be performed as part of the development of the bid for radon mitigation system installation.

3. Is there a system warranty? Review post-system installation service expected. Questions include, but are not limited to:

- Is system performance guaranteed to achieve results less than 4.0 picocuries per liter (pCi/L)?
- Who is performing the post-mitigation test and how will I get my results?
- What warranty on the system and parts does the mitigation technician include?
- What happens if the system failed to reduce radon levels below EPA's action level of 4.0 pCi/L?

With any contractor, remember to check references, get competing bids, ask to see examples of previous work, and review the contract thoroughly.

The South Carolina Radon Program can provide a free post-mitigation test kit to confirm your contractor's result. To request one visit www.scdhec.gov/radon. For questions, the program can be contacted at 1-800-768-0362 or radon@dhec.sc.gov.

See the other side for a list of South Carolina-based certified mitigation professionals.

(mitigation, revised on 5/21/2020)

South Carolina-based Nationally Certified Radon Mitigation Professionals

The following individuals offer radon mitigation services. SC DHEC does not recommend or endorse any company, its services or products. DHEC takes no responsibility for the accuracy or completeness of this list, but it has been updated as accurately as possible as of May 21, 2020. The list is alphabetical by last name.

Kurt Brickner, Sherlock Homes PS, LLC
Moncks Corner, SC 29461
Phone: (419) 957-2422
Email: kbrickinc@yahoo.com
Website: www.sherlockhomes-sc.com
NRPP RMT-109170, valid through 7/31/2021
Call for service area.

Merritt Gantt, True Air Technologies, LLC
Greer, SC 29650 (serving all SC counties)
Phone: (803) 461-5664
Email: merritt@833trueair.com
Website: www.833trueair.com
NRPP RMT – 110778, valid through 7/31/2021
NRSB ID 19G016, valid through 8/30/2021
Serving all SC counties.

Oscar Garcia, Radon Recon
Greenville, SC 29605
Phone: (864) 350-0300
Email: contact@closingcontractor.com
NRPP RMT - 109995, valid through 3/31/2021
Call for service area.

Christopher Shane Hipps, Radon Recon
Greenville, SC 29605
Phone: (864) 350-0300
Email: contact@radonrecon.com
